The Snap-E® is truly a BETTER MOUSETRAP

Snap-E® mousetraps are escape proof and the innovative design ensures you’ll never touch another mouse. The mechanism is smart, the materials are rugged. Snap-E® mousetraps are easy to use and made to last. Use them year after year. *They’re safe, simple and sanitary.*

Steel and durable ABS plastic make them tough. Smart engineering - including a larger trip paddle and strike bar - makes them work every time.
Snap-E® MOUSETRAP: INSTRUCTIONS

Place the baited Snap-E® near a wall and pull back on the upright bar until it locks firmly in the catch. The vertical strike bar is faster than the bar in an old-fashioned wooden trap because it travels just half the distance to catch a mouse. The large trip paddle and strike bar catch rodents from the front, sides and back. To clear the trap, simply pull back on the upright bar until mouse is released. Your fingers never touch the mouse.

1. Simply place bait in pre-formed bait cup.  
2. Pull back slowly on upright bar until locked firmly in catch. Place trap next to wall near pest activity.  
3. Pull back slightly on upright bar until mouse is released.
